

RESOURCE Guide Product Listings

One of the most powerful image-building, business-getting techniques is to place your company name and logo in front of customers and potential customers every opportunity you can. Our Resource Guide is one such avenue in which you should be placing yourself. When your company appears in this very powerful tool, listed under your respective industry category, you establish instant credibility as an expert in your field. If your company name is not listed here, the only thing you can be sure you are doing is helping your competitors who are listed gain more traction, business and increased revenue.

Product Listings are paid advertising and will appear in the Resource Guide section of the January issue of the *Rumbles* magazine. First, choose which listing option best represents your company then choose which category you want your listing to be listed under using the following pages. Each category checked will be charged accordingly.
